They're asking for quick turnaround on this (2PM today) for Ross' hearing next week. It's fine if you can't get to it though.

Hi Fitz:

The attached PFAS methods tech brief has been updated to reflect the action plan and DDD's comments. Dave Ross has requested this information for his book for prep for the hearing next week and OW informed me we need to have it back by 2pm today. Chris and Michelle did quick work to address the comments so that we could try to get it cleared.

I know that's a super quick turnaround, and I apologize for that. If there's anyway it can get cleared by then, that would be great.

If not, I will send to OW letting them know that it's not been fully cleared by ORD IO but that the information should still be valuable to help DR prep for the hearing.

Let me know if you have any questions.

Thanks,
Lahne
